

SafeCare Pledge

Preventing the Spread of COVID-19

PrairieCare is a safe place for mental health care. The safety within our care environments exceed community standards, and we rely on all visitors to help reduce risk of infection in the community, and keep our staff and patients safe.

- I pledge to be responsible for myself, and make safe choices while at PrairieCare and in the community.
- I will help promote everyone's safety by:
 - ✓ Following the Stay Safe MN guidelines (www.staysafemn.gov)
 - ✓ Participating in screening for symptoms of illnesses
 - ✓ Washing my hands thoroughly and often
 - ✓ Wearing a mask when around others
 - ✓ Diligently covering my coughs and sneezes
 - ✓ Cleaning my work area thoroughly
 - ✓ Practicing distancing as best as I can while at PrairieCare and within the community
- I have a right to be informed, and can ask for support whenever I have questions, concerns or other needs.
- I understand that we are all dealing with this together, and that we are doing our best within the space that we have, to keep each other safe.
- I will help others understand the importance of SafeCare and how to avoid risks of spreading COVID-19 in the community.
- I pledge to be a SafeCare Champion!
