

# SafeCare Pledge

## Preventing the Spread of Germs and Communicable Diseases

*PrairieCare is a safe place for mental health care. The safety within our care environments is a high priority, and we rely on all visitors to help reduce risk of infection in the community, and keep our staff and patients safe.*

- I pledge to be responsible for myself, and make safe choices while at PrairieCare and in the community.
- I will help promote everyone's safety by:
  - Following recommendations from the Minnesota Department of Health.
  - Following and adhering to community standards.
  - Washing my hands thoroughly and often.
  - Following recommendations for personal protective wear.
  - Diligently covering my coughs and sneezes.
  - Cleaning my personal area thoroughly.
  - I have a right to be informed and will ask for support whenever I have questions, concerns or other needs.
  - I understand that we are all here together, doing our best within the space that we have, to keep each other safe.
  - I will help others understand the importance of SafeCare and how to avoid risks of spreading germs and communicable diseases in the community.
  - I pledge to be a SafeCare Champion!
